

## Eir scientific event

### Seminar on Occupational Health

- Time:** Wednesday 30 October 2013 at 13:00-15:00
- Place:** Aalborg University, Fredrik Bajers Vej 7D, room no. D2-106
- Title:** “Ergonomic interventions, physical training and work-related musculoskeletal disorders”

We are pleased to announce a bilateral seminar between the National Research Center for the Working Environment (NRCWE), Copenhagen and the Physical Activity and Human Performance research interest group, Center for Sensory-Motor Interaction (SMI), Aalborg University represented by the Laboratory for ergonomics and work related disorders.

Professor Lars L. Andersen and his group from NRCWE will present novel findings concerning “integrated motion at work”. The presentation will focus on intervention studies aiming at the prevention and rehabilitation of musculoskeletal disorders in relation to seated, laboratory, butchers and health personal work.

Professor Pascal Madeleine and his group will review recent studies conducted at Aalborg University related to ergonomic interventions, bio-signal variability analyses in real and virtual environment as well as supervised training for the prevention of neck shoulder disorders.

#### Registration

Please send an e-mail to [lp@hst.aau.dk](mailto:lp@hst.aau.dk) no later than 28 October 2013 (please state name and institution).

All interested are welcome.

Yours sincerely

**Pascal Madeleine**

**Professor, PhD, dr. scient.**

**Research Interest Group on Physical Activity and Human Performance**

## Agenda for the Seminar:

- 13:00-13:05 Welcome by Pascal Madeleine & Lars L Andersen
- 13:05-13:25 "Individuelt tilpasset intervention mod skulder/arm smerter hos laboranter" by Kenneth Jay, National Research Center for the Working Environment
- 13:25-13:45 "Integret Motion på Arbejdspladsen for SOSU'er - hjemmetræning eller arbejdspladstræning?" by Markus Jacobsen, National Research Center for the Working Environment
- 13:45-14:05 "DC Fit for Life - Integreret Motion på Arbejdspladsen for slagteriarbejdere" by Emil Sundstrup, National Research Center for the Working Environment
- 14:05-14:25 "Eccentric shoulder training – a randomized controlled trial focusing on neural adaptations", Steffen Vangsgaard, Aalborg University
- 14:25-14:45 "ErgoVar project: quantification of exposure variation in Ergonomics" by Afshin Samani, Aalborg University
- 14:45-15:00 "Round table" Lars L Andersen & Pascal Madeleine

Note: Foredrag vil være delvis på dansk og engelsk  
The lectures will be held partly in Danish and partly in English
